WORKRITE® BENEFITS

- Excellent workability
- Superior board life
- Color consistency
- Long- term durability

COLORED PORTLAND CEMENT & LIME BLEND

PRODUCT DESCRIPTION:

WORKRITE® colored Portland Cement & Hydrated Lime Blend (PCL) is produced using Portland cement, hydrated lime, iron oxide pigments and other materials to produce a variety of colored mortar products.

Each formula is created with the utmost care and consideration to insure that the integrity of the mortar product conforms to ASTM requirements and the standards of the masonry industry.

WORKRITE® offers a variety of core colors which complement most masonry projects. We also have the ability to formulate special colors upon request.

TYPES AND USES:

Two formulations of WORKRITE® Portland & Lime Blends are available to meet masonry construction needs:

Type N: Normal strength
Type S: Medium strength

Type N mix should only be used for above-grade construction and is recommended for exterior brick and block veneers.

Type S, a stronger mix, can be used above or below grade.

APPLICABLE ASTM SPECIFICATIONS:

- C150 Standard Specification for Portland Cement
- C207 Standard Specification for Hydrated Lime
- C270 Standard Specification for Mortar for Unit Masonry
- C 144 Aggregates for Masonry Mortar
- C 979 Pigments for Concrete
- C 780 Preconstruction and Construction Evaluation

**Workrite cements meet or exceed all ASTM specifications.*
